tags: ["water-element-kidney-detox", "30-day-cleanse", "enzyme-therapy", "water-element", "traditional-chinese-medicine", "kidney-stones", "maca-supplements", "organ-detox"]

category: "detox-protocol"

summary: "A comprehensive 30-day kidney cleanse protocol featuring three plant-based enzyme products designed to detoxify, strengthen, and regenerate kidney function while supporting overall vitality and sexual health."

keywords: ["kidney cleanse 30 days", "kidney detox protocol", "enzyme kidney cleanse", "kidney stone removal natural", "maca kidney health", "water element detox"]

qa_pairs:

- question: "What are the three products included in the ZenCleansz ORIGIN kidney cleanse?"
answer: "The ORIGIN cleanse contains Inca Liquid Enzymes (rich in Maca for hormonal balance and energy), Aztec Prickly Pear Enzyme Blend (fermented antioxidant support), and JING Enzyme Capsules (for kidney essence restoration and circulation)."
- question: "What are common symptoms of kidney toxicity that indicate need for cleansing?"
answer: "Common symptoms include decreased urine output, swelling in legs/feet/ankles, fatigue and weakness, changes in urination patterns, nausea and vomiting, fluid imbalances, back pain, and confusion or cognitive changes."
- question: "How does ZenCleansz ORIGIN differ from traditional kidney cleanse methods?"
answer: "Unlike traditional methods that only cleanse kidneys through dietary restrictions, ORIGIN focuses on kidney regeneration using fermented plant enzymes that penetrate the bloodstream to initiate systemic purification while nourishing cells."
- question: "What dietary recommendations should be followed during the kidney cleanse?"
answer: "Focus on antioxidant-rich foods like apples, berries, kale, and green leafy vegetables while limiting salt, animal protein, high-sugar foods, and processed foods. Also avoid alcohol, caffeine, and smoking."

ZenCleansz 5 Element Detox & Rejuvenation System

Layer 5: Water - Kidneys

Overview

The Toxicity Entry Points & Filtration System

We slowly get intoxicated following the main entry points: the intestines, the lungs, and the skin. From there, the toxins penetrate the bloodstream and, carried by the blood, go through three primary filters:

- **The liver** - receives the most significant load of toxins
- **The lymphatic system** - absorbs toxic particles that have crossed the first barrier
- **The kidneys** - receives toxins when the lymphatic system is overloaded

Due to their detoxification functions, these organs gradually become saturated with impurities and require support.

The ZenCleansz Way

The ZenCleansz Way is a 6-month detox & rejuvenation schedule divided into six bundles, each designed for approximately one month. Each is designed to help gradually dig deeper and deeper into the toxicity of various drainage pathways and layers of tissues while constantly taking care of upstream sources of filtration and intoxication.

The ORIGIN Kidney Cleanse Philosophy

We have created all our cleanse and maintenance kits based on plants with promising compounds to purify the kidneys. From day 1, anyone who has started taking our enzyme blends has begun to cleanse their kidneys.

Revolutionary Approach:

Our therapeutic and systemic enzymes penetrated the blood, journeyed throughout the body's system, and initiated kidney purification.

With the ORIGIN cleansing and maintenance kits, we go beyond simple enzyme support. We've put more focus on the **regeneration of the kidneys** to boost vitality so that:

- Performance of circulatory and immune systems is notably improved
 - Brain functions increased
 - Allergic symptoms reduced
 - Antioxidant, anti-fungal, and anti-bacterial properties strengthened
 - Sexual functions enhanced
 - A glow is added to skin and hair
 - Most profound support of all upstream drainage pathways maintained
-

Traditional Chinese Medicine & Naturopathic Medicine

Traditional Chinese Medicine (TCM) Perspective

The Kidneys in TCM

The kidneys are the root of all yin and yang energies in the body and are considered the foundation of good health.

Key Characteristics:

- Considered one of the essential organs
- Responsible for several vital functions
- Associated with the element of **Water**

Kidney Functions in TCM

Jing (Essence) Storage:

- Kidneys store Jing, similar to "vital essence"
- Considered foundation of one's life force
- Responsible for growth, development, and reproduction

Water Metabolism & Fluid Balance:

- Regulate body's fluid balance
- Control water metabolism
- Filter and excrete waste products through urine
- Control urination
- Help maintain proper hydration

Bone & Marrow Connection:

- Associated with the bones
- Believed to influence bone development and strength
- Produce marrow, which nourishes bones
- Marrow is dense substance nourishing body
- Nourishes brain and spinal cord
- Support brain function
- Nourish bones and joints

Reproductive Functions:

- Associated with both male and female reproductive functions
- Regulate sexual maturation
- Support fertility
- Maintain health of reproductive organs

Emotional & Willpower Connection:

- Associated with emotions of willpower and fear
- Balanced kidney energy supports strong willpower
- Supports determination
- Supports ability to overcome fear

TCM Recommendations for Kidney Health

To support kidneys and promote overall health and well-being:

- Proper diet
- Regular exercise
- Healthy lifestyle practices

Naturopathic Medicine Perspective

The Kidneys as Main Emunctories

According to naturopathic medicine, the kidneys are considered one of the main emunctories (eliminary organs) that allow for:

- Elimination of cellular waste
- Removal of blood impurities
- Waste removal

Kidney Structure & Function

Nephrons:

- Each kidney comprises millions of tiny nephrons (functional kidney units)
- Filter blood to maintain acid-base balance (pH)
- Support homeostasis (self-regulating process)

The Problem of Accumulation

Even though kidneys detoxify every day by themselves, they are able to accumulate a lot of waste over time.

Like filters, if they're not functioning correctly:

- Body has to equilibrate and find balance
- Body somehow stores waste somewhere in the body
- In kidney's case: kidney stones, crystal calcium masses, unprocessed minerals
- These can grow to the size of a golf ball
- Found in urinary system

Long-Term Effects:

- Over time, toxins and waste products poison the body
- Organs work less efficiently

Naturopathic Recommendations

In naturopathy, detoxification methods:

- Eliminate waste
- Stimulate renal functions
- Recommend well-combined diet with leafy vegetables
- Maintain alkalinity in body
- Promote kidney health

Anatomy & Physiology

Anatomy of the Kidneys

The kidneys are a pair of vital organs on either side of the spine, below the rib cage. They are responsible for several crucial bodily functions relating to blood filtration and urine production.

Physical Structure

Size & Shape:

- Each kidney approximately size of a fist
- Bean-shaped structure

Location & Protection:

- Located on either side of spine
- Below rib cage

- Layer of protective fat surrounds them
- Located in retroperitoneal space of abdomen

Internal Layers:

- **Outer layer** - Renal cortex
- **Inner region** - Renal medulla
- Renal medulla consists of several pyramid-shaped structures called renal pyramids

Blood Supply & Connection:

- Kidneys receive blood supply through renal arteries
- Blood drained through renal veins
- Each kidney connected to bladder through tube called ureter
- Ureter carries urine from kidneys to bladder

Physiology of the Kidneys

The complex anatomy and physiology of the kidneys allow them to perform essential functions in health and homeostasis in the body.

Key Functions

1. Filtration

- Primary function is to filter waste and excess substances from bloodstream
- Blood enters kidneys through renal arteries
- Within kidneys, tiny functional units called nephrons perform filtration process

2. Reabsorption

- As blood is filtered in nephrons, essential substances are selectively reabsorbed into bloodstream
- Essential substances include: water, glucose, ions, certain nutrients
- Helps maintain proper balance of these substances
- Prevents their loss through urine

3. Secretion

- Kidneys play role in secretion of waste products, drugs, and toxins into urine
- Additional step in eliminating substances not adequately filtered during initial filtration

4. Urine Production

- After filtration, reabsorption, and secretion processes, remaining fluid (urine) is excreted
- Urine collects in renal pelvis (central area within kidney)
- Then moves into ureters for transport to bladder

5. Regulation of Water & Electrolytes

- Kidneys help maintain proper fluid balance and electrolyte levels
- Regulate excretion or retention of water, sodium, potassium, calcium, other vital electrolytes
- Ensure optimal concentration in body's fluids

6. Acid-Base Balance

- Kidneys play crucial role in maintaining body's acid-base balance
- Regulate levels of hydrogen and bicarbonate ions in blood
- Help prevent acidosis or alkalosis
- Prevents disruption of normal bodily functions

Kidney Capacity & Daily Function

Healthy kidneys filter about half a cup of blood per minute, eliminating waste and additional water for urination.

Daily Kidney Work:

- Designed to eliminate toxins and waste from body daily
- If they don't, they store excess waste
- Excess waste eventually burdens normal functions of kidneys, liver, other organs

Consequences of Dysfunction

Over time, waste build-up leads to:

- Exhaustion

- Stomach pain
- Headaches
- Water retention
- Other problems

Additional Consequences:

- Can lead to kidney stones
- Masses of crystals or unprocessed minerals
- Can grow to size of golf ball

Positive Note:

Cleansing the kidneys improves your ability to:

- Process certain foods
- Absorb nutrients
- Convert food to energy

Why Cleanse

Most Common Symptoms of Clogged Kidneys

A toxic kidney can have very dramatic expressions, like acute kidney injury (AKI) or acute renal failure, which refers to sudden and rapid decline in kidney function due to toxic effects of various substances. In these cases, one needs to seek medical support.

More commonly, multiple symptoms indicate unhealthy kidneys, and they can vary depending on underlying cause.

Common Symptoms

1. **Decreased urine output or oliguria** - Producing less urine or having infrequent urination. In some cases, there may be complete lack of urine production.
2. **Swelling or edema** - Accumulation of fluid in body, leading to swelling in legs, feet, ankles, or face due to impaired ability of kidneys to remove excess fluid.
3. **Fatigue and weakness** - Toxins cause overall weakness and fatigue due to decreased kidney function, leading to anemia and inadequate waste removal from bloodstream.
4. **Changes in urination** - Various changes in urination patterns such as cloudy or foamy urine, frequent urination, urgency, or difficulty.
5. **Nausea and vomiting** - Accumulating waste products in body can lead to nausea and vomiting.
6. **Fluid and electrolyte imbalances** - Toxic kidneys disrupt normal balance of fluids and electrolytes in body, leading to symptoms such as dehydration, electrolyte abnormalities (e.g., high potassium levels), and imbalances in acid-base levels.
7. **Swelling in the extremities** - Peripheral edema, characterized by swelling in hands, feet, or legs, can occur due to fluid retention.
8. **Back pain** - Flank pain or dull aching in lower back may be present and associated with toxic kidneys. Pain may be unilateral or bilateral.
9. **Confusion and cognitive changes** - Severe kidney injury can affect brain function and lead to confusion, cognitive impairment, difficulty concentrating, and even seizures in severe cases.

Extended Symptoms of Toxic Kidneys

- Fatigue or weakness
- Edema or swelling, especially in legs, ankles, or feet
- Blood in the urine
- Unexplained weight loss
- Nausea or vomiting
- Loss of appetite
- Insomnia or difficulty sleeping
- High blood pressure
- Muscle cramps or twitches
- Itchy skin, skin rash, or dry skin
- Urinary tract infections
- Changes in urinary habits such as increased or decreased urination, or dark-colored urine

ZenCleansz ORIGIN 30-Day Cleanse

Product Overview

ZenCleansz ORIGIN is Step 5 of the 5-Element detoxification system to purify the body. ORIGIN is a 30-day process designed to cleanse, nourish, and strengthen the kidneys.

What ORIGIN Does

- Removes impurities
- Prevents viral invasion
- Promotes liver detoxification
- Balances hormones
- Strengthens kidney function

What's Included

The ORIGIN cleanse contains three products:

1. **Inca Liquid Enzymes** - Rich in the superfood Maca (Peruvian Ginseng)
 - Nourishes and strengthens body
 - Helps hormonal imbalances
 - Boosts energy and endurance
 - Improves mood and memory
2. **Aztec Prickly Pear Enzyme Blend** - Rich in antioxidants
 - Each bottle fermented from 10-12 Roxburgh Pears
 - Provides comprehensive antioxidant support
3. **JiNG Enzyme Capsules** - Powerhouse of vitality
 - Help restore kidney essence
 - Strengthen kidney function
 - Promote circulation
 - Help regulate nervous, endocrine, pelvic, reproductive, and vascular systems
 - Powerful for restoring sexual energy and vital essence

Simply Revolutionary!

Traditional Kidney Cleanse Methods v.s. ZenCleansz ORIGIN

Traditional Methods:

- Focus on avoiding intake of food that affects kidney health without adding plants to regenerate kidneys
- Implication level is high
- Need to repeat process many times to get kidneys waste and toxins out
- Must consume massive quantity of foods (apple cider vinegar, lemon juice, dandelion) for extended period (over 6 months)
- These methods support healthy kidney function by adding certain foods and beverages
- Traditional methods only cleanse kidneys

ZenCleansz ORIGIN Advantages:

- Put more focus on **regeneration of the kidneys** to boost vitality
- Performance of circulatory and immune systems notably improved
- Brain functions increased
- Allergic symptoms reduced
- Antioxidant, anti-fungal, anti-bacterial properties strengthened
- Sexual functions enhanced
- Glow added to skin and hair
- All enzyme blends focus on kidneys' purification
- Enzymes penetrate blood throughout system and initiate kidneys' purification
- Enzyme blends can be added to kidney cleanse diet
- Natural enzyme therapy is fantastic food for body
- Adding this cleanse to cleansing food diet makes it much more effective
- 30-day process formulated to cleanse, nourish, and strengthen kidneys
- While taking plant-based enzymes, body is fed to cellular level

Highlights of ZenCleansz ORIGIN

Main Features

- **100% plant ingredients** - Fermented for over 3 years
- **3-in-1 solution** - Detoxifies, purifies, and strengthens kidneys
- **Rejuvenates your body** - Using cleanse with systemic enzymes that penetrate system and all cells
- **Eliminate kidney stones** - Crystal calcium masses and unprocessed minerals easily and smoothly
- **Combine with diet** - These living superfood enzymes work with healthful daily diet
- **Phenomenal effects** - 30-day process revitalizes kidneys and creates effects on endocrine, nervous, and immune systems

The Kidneys' Critical Functions

The kidneys oblige numerous primordial functions in the body:

- Work hard to remove fluid and waste from over 200 quarts of blood per day
- Produce hormones that help control blood pressure
- Keep bones healthy
- Control pH levels
- Create red blood cells

ZenCleans Approach:

The ZenCleans inside-out approach promotes kidney functions and blood circulation by boosting nutrition and energy with delicious enzymes designed to maintain health without investing in diseases.

How the Cleanse Works

Before the 30-Day Cleanse

Fasting

- Fasting is always welcomed before cleansing
- However, there is no need to fast before this cleanse

Kidney Diet Preparation

Following a kidney diet before and during cleansing will promote better results. You can apply these recommendations a week to 30 days before this cleanse.

Focus on nutritious antioxidant-rich foods:

- Apples
- Grapes
- Berries
- Kale
- Spinach
- Onion
- Green leafy vegetables
- Garlic

Limit and avoid:

- Limit salt intake
- Limit protein intake, especially animal protein (meat, eggs, dairy)
- Avoid high-sugar foods
- Avoid processed foods

Benefits:

Combining a balanced daily diet with anti-inflammatory food is recommended to maintain kidney health.

Lifestyle Preparation

Stop these substances:

- Stop smoking
- Stop drinking alcohol
- Stop consuming caffeine

Why:

Avoiding alcohol, smoking, and caffeine is scientifically proven to have benefits for kidney health.

Safe space preparation:

Organize/plan a safe space to do this 30-day cleanse.

Stress reduction:

- Start to reduce daily stress
- Start practicing recommendations referred to in user guide

Expectations

Regardless of what is eaten the day before this cleanse, the enzymes will do their work, and there will still be results.

During the 30-Day Cleanse**Enzyme Protocol**

A specific enzyme therapy protocol is followed for 30 days, with designated time frames per day.

Dietary Focus

Follow kidney cleanse diet focusing on:

- Nutritious antioxidant-rich foods
- Anti-inflammatory foods
- Whole, clean foods

Benefits:

Combining a balanced daily diet with anti-inflammatory food is recommended to maintain kidney health.

Lifestyle Practices**Stress Management:**

- Try to release yourself from unnecessary stress
- Focus on positive emotional state
- Understand that kidneys are energetically linked to life focus, clarity, and doubt
- Ask yourself: "How can I reduce my daily stress charge?"
- If possible, reduce that load of stress
- **Healthy kidneys start with healthy mindset!**

Exercise:

- Aerobic exercises recommended
- Yoga recommended
- Qi Gong recommended

Massage:

- Incorporate liver massages every day
- Promotes liver detoxification during cleanse

Sleep:

- Sleep at least 7-8 hours per night
- Get adequate rest during cleanse

Self-Care Support

The 30-day cleanse is designed to support your kidney health through multiple modalities.

After the 30-Day Cleanse**Results Timeline**

The results are seen during and after the 30-day cleanse.

What to expect:

As the month progresses, you should feel more energetic, strong, and lively.

Maximizing Results

To maximize and improve results:

- Do back-to-back ORIGIN kits
- Discover maintenance products

Continued Maintenance

We suggest that those who have done the ORIGIN kit continue taking:

- ZenCleans liquid enzymes
- ZenCleans Powders
- ZenCleans Pills

For daily maintenance to continue cleansing and nourishing cells systemically.

Evaluating Your Health

You can evaluate your health based on the last 30 days.

Product Components & Ingredients

JING - Vital Awakening

title: "JING (Vital Awakening) - Kidney Health and Sexual Energy Supplement"
date: "2026-01-14"
tags: ["kidney-health", "sexual-energy", "detoxification", "ginseng", "amino-acids", "vitality-support", "kidney-detox", "energy-restoration"]
category: "product-guide"
summary: "JING is a comprehensive supplement formula designed to detoxify, nourish, and heal the kidneys while supporting sexual energy and vitality through a blend of ginseng, amino acids, vitamins, and traditional herbal extracts. The formula focuses on enhancing kidney function, reducing inflammation, and promoting cellular repair for overall systemic health."
keywords: ["kidney detox supplement", "sexual energy booster", "ginseng kidney health", "amino acids for kidneys", "kidney vitality formula", "natural kidney support"]
qa_pairs:

- question: "What are the main benefits of the JING supplement formula?"
answer: "JING detoxifies and strengthens the kidneys, nourishes kidney tissues with amino acids and vitamins, reduces inflammation for healing, and revitalizes overall energy and vitality."
- question: "How does arginine help kidney function in the JING formula?"
answer: "Arginine boosts nitric oxide levels to improve blood flow to the kidneys for better toxin filtration and assists in removing excess ammonia from the body, reducing kidney strain."
- question: "What role does taurine play in kidney health?"
answer: "Taurine acts as an antioxidant to neutralize free radicals in kidney tissues, helps maintain electrolyte balance for efficient toxin elimination, and protects against protein leakage in urine."
- question: "How do the B vitamins in JING support kidney function?"
answer: "The Multi-Vitamin B Complex enhances energy production at the cellular level and aids in toxin metabolism, with B6 and B12 specifically helping prevent homocysteine buildup that can harm kidneys."
- question: "What makes ginseng extract important for kidney health in this formula?"
answer: "Ginseng extract provides adaptogenic effects that enhance kidney resilience to stress, reduces chronic inflammation for faster tissue healing, and revitalizes kidney energy and overall vitality."

Product Overview

Product Name: JING (Energizer, Sexual Energy Replenisher)

The JING formula is a carefully curated blend of powerful ingredients designed to detoxify, nourish, and heal, with a particular focus on revitalizing and strengthening the kidneys.

Ingredient List

Ginseng Extract, Raspberry Extract Powder, Goji Berry Extract (Goji Berry Extract, Dextrine résistante), Clove Powder, Cumin Extract (Cumin Extract, Dextrine résistante), Cinnamon Extract (Cinnamon Extract, Dextrine résistante), Microcrystalline Cellulose, Arginine, Taurine, Zinc Yeast, Silicon Dioxide, Magnesium Stearate, Fenugreek Extract, Multi-Amino Acids (Dextrine résistante, L-Glutamic Acid, L-Aspartic Acid, L-Proline, L-Leucine, Glycine, L-Valine, Hydrochloric Acid, L-Lysine Hydrochloride, L-Isoleucine, L-Threonine, L-Arginine, L-Histidine, L-Phenylalanine, DL-Methionine, L-Tyrosine, L-Tryptophan Acid), Multi-Vitamin B Complex (Riboflavin, Vitamin B6, Niacinamide, Vitamin B1, Vitamin B12, Calcium Pantothenate, Folic Acid, Biotin), Isomalto Oligosaccharide

1. Detoxing Properties

The kidneys are responsible for removing waste and toxins from the body. These ingredients work synergistically to optimize this function.

Arginine

Circulatory Enhancement:

- Boosts nitric oxide levels, improving blood flow to the kidneys for effective toxin filtration

Ammonia Detoxification:

- Assists in removing excess ammonia from the body, reducing kidney strain

Taurine

Antioxidant Support:

- Neutralizes free radicals in kidney tissues, protecting against oxidative stress

Osmoregulation:

- Helps maintain electrolyte balance, ensuring efficient toxin elimination

Fenugreek Extract

Kidney Cleansing:

- Supports the excretion of waste products and helps reduce inflammation in renal tissues

Blood Sugar Stabilization:

- Reduces stress on kidneys caused by high glucose levels

Isomaltooligosaccharide

Prebiotic Action:

- Supports gut health, which reduces the toxic load on the kidneys by improving digestion and nutrient absorption

Wolfberry Extract (Goji Berry)

Detoxification Booster:

- Protects against damage caused by environmental toxins, aiding the kidneys in filtration

Cinnamon and Clove Powder

Anti-Microbial Properties:

- Help reduce harmful pathogens and toxins that may strain kidney function

Improved Circulation:

- Enhance blood flow, supporting efficient filtration

2. Nourishing Properties

Adequate nourishment is vital for kidney repair and rejuvenation.

Multi-Amino Acids

Tissue Repair and Regeneration:

- Amino acids like L-Glutamic Acid and L-Proline support the repair of damaged kidney tissues

Protein Synthesis:

- Essential for maintaining healthy renal function and promoting recovery from stress or injury

Wolfberry Extract

Rich in Antioxidants:

- Protects kidney cells from oxidative stress, ensuring long-term health

Vitamins and Minerals:

- Provides essential nutrients like vitamin C and zinc, which are crucial for kidney repair

Multi-Vitamin B Complex

Energy Metabolism:

- Enhances energy production at the cellular level, supporting kidney function

Detox Support:

- Vitamins B6 and B12 aid in the metabolism of toxins and help prevent homocysteine buildup, which can harm the kidneys

Raspberry Extract Powder

Rich in Phytonutrients:

- Provides anthocyanins and ellagic acid, which protect the kidneys from oxidative and inflammatory damage

Cumin Extract

Mineral Support:

- Contains iron, calcium, and magnesium to nourish and support healthy kidney function
-

3. Healing Properties

The healing process for kidneys involves reducing inflammation, repairing tissues, and boosting resilience.

Ginseng Extract

Adaptogenic Effects:

- Enhances the kidneys' resilience to physical and chemical stressors

Anti-Inflammatory:

- Reduces chronic inflammation, allowing for faster tissue healing

Fenugreek Extract

Inflammation Reduction:

- Reduces oxidative stress and inflammation in kidney tissues

Taurine

Cellular Protection:

- Repairs damaged renal cells and enhances their functionality

Electrolyte Balance:

- Ensures that kidney cells maintain proper hydration for healing

Zinc Yeast

Cell Regeneration:

- Zinc plays a key role in cellular repair and immune function, supporting the healing of damaged kidney tissues
-

4. Kidney-Boosting Properties

This formula is designed to strengthen the kidneys, enhancing their ability to perform their crucial functions.

Arginine

Enhanced Filtration:

- Improves renal circulation, enabling better filtration of blood

Taurine

Reduced Proteinuria:

- Helps protect against protein leakage in the urine, a sign of kidney stress

Wolfberry Extract

Kidney Qi Support:

- In traditional medicine, wolfberries are considered kidney tonics that enhance vitality

Cumin and Cinnamon Extracts

Blood Flow Regulation:

- Ensure efficient nutrient delivery and toxin removal by improving circulation to the kidneys

Magnesium Stearate

Electrolyte Support:

- Helps maintain a healthy electrolyte balance, reducing kidney strain
-

5. Revitalizing Effects

The blend's revitalizing properties restore energy and vitality, with a focus on supporting kidney energy (Jing) in traditional Chinese medicine.

Ginseng Extract

Qi Booster:

- Revitalizes kidney energy and overall vitality

Stress Adaptation:

- Helps the body cope with physical and mental stress, preventing kidney exhaustion

Taurine and Multi-Amino Acids

Energy Restoration:

- Provide the building blocks for energy production and cellular repair

Multi-Vitamin B Complex

Metabolic Revitalization:

- Supports the energy metabolism required for kidney function and systemic rejuvenation

Clove and Cinnamon Extracts

Invigorating Circulation:

- Promote blood flow to the kidneys, ensuring efficient function and repair
-

Summary

The JING formula is a powerful ally in detoxifying, nourishing, healing, and revitalizing the kidneys. Its combination of amino acids, vitamins, adaptogens, and traditional herbal extracts works synergistically to:

Detoxify: Enhance kidney filtration and waste removal.

Nourish: Supply vital nutrients for cellular repair and energy.

Heal: Reduce inflammation and support the regeneration of damaged tissues.

Boost: Strengthen kidney function and resilience.

This makes JING an exceptional formula for promoting long-term kidney health, vitality, and systemic balance.

AZTEC - Heavy Metal Purge

title: "AZTEC Heavy Metal Purge - Complete Product Guide"
date: "2026-01-14"
tags: ["heavy-metal-detox", "probiotics", "rosa-roxburghii", "gut-health", "liver-detoxification", "chelation", "antioxidants", "microbiome"]
category: "product-guide"
summary: "Comprehensive guide to AZTEC, a heavy metal detoxifier containing Rosa Roxburghii fermented liquid and probiotics that bind and eliminate toxic metals while restoring gut and liver health. Details the detoxing, nourishing, and healing properties of each ingredient for heavy metal purification."
keywords: ["heavy metal detox supplement", "rosa roxburghii benefits", "probiotic heavy metal chelation", "gut liver detox support", "mercury lead cadmium removal", "microbiome restoration"]
qa_pairs:

- question: "What are the main ingredients in AZTEC heavy metal detox?"
answer: "AZTEC contains Rosa Roxburghii Tratt Fermented Liquid, Isomalto Oligosaccharide, Lactobacillus Acidophilus (LA1063), and Bifidobacterium Longum."
- question: "How does AZTEC help eliminate heavy metals from the body?"
answer: "AZTEC binds heavy metals in the gut through probiotics and antioxidants, prevents their absorption, and facilitates excretion through feces while supporting liver detoxification pathways."
- question: "Which heavy metals does AZTEC help remove?"
answer: "AZTEC helps bind and neutralize heavy metals including lead, mercury, and cadmium, making them easier for the body to excrete."
- question: "How does Rosa Roxburghii support heavy metal detoxification?"
answer: "Rosa Roxburghii provides antioxidants like vitamin C that bind heavy metals, boost glutathione production in the liver, and reduce oxidative stress and inflammation from metal accumulation."
- question: "What role do the probiotics play in heavy metal detox?"
answer: "The probiotics Lactobacillus Acidophilus and Bifidobacterium Longum bind to heavy metals in the gut, prevent their absorption, restore gut integrity, and work synergistically to detoxify the digestive system."

Product Overview

Product Name: AZTEC (Heavy Metal Detoxifier & Antioxidant)

The combination of Rosa Roxburghii Tratt Fermentation Liquid, Isomaltooligosaccharide, Lactobacillus Acidophilus (LA1063), and Bifidobacterium Longum creates a potent formula with remarkable detoxifying, nourishing, and healing benefits, particularly for heavy metal detoxification.

Ingredient List

Rosa Roxburghii Tratt Fermented Liquid, Isomalto Oligosaccharide, Lactobacillus Acidophilus (LA1063), Bifidobacterium Longum

1. Detoxing Properties

Rosa Roxburghii Tratt Fermentation Liquid

Chelating Agents:

- Rich in antioxidants such as vitamin C and polyphenols, it helps bind and neutralize heavy metals like lead, mercury, and cadmium, making them easier for the body to excrete

Supports Liver Detoxification:

- Boosts glutathione production in the liver, enhancing the detox pathways essential for heavy metal removal

Anti-Inflammatory:

- Reduces oxidative stress and inflammation caused by heavy metal accumulation, protecting tissues from damage

Isomaltooligosaccharide

Prebiotic Action:

- Feeds beneficial gut bacteria, creating a healthier gut environment that can trap and eliminate heavy metals from the digestive

tract

Improved Excretion:

- Promotes bowel regularity, preventing heavy metals from being reabsorbed into the bloodstream

Gut-Liver Axis:

- Supports the gut microbiome's role in reducing the toxic load processed by the liver

Lactobacillus Acidophilus (LA1063)

Sequestration of Metals:

- Binds to heavy metals in the gut, preventing their absorption and facilitating their excretion through feces

Immune Support:

- Boosts immunity to counteract the immunosuppressive effects of heavy metal exposure

Restores Gut Integrity:

- Helps repair the intestinal lining, reducing leaky gut syndrome and the systemic spread of toxins

Bifidobacterium Longum

Metal Chelation:

- Works synergistically with other gut bacteria to adsorb heavy metals and detoxify the digestive system

Anti-Toxic Effects:

- Protects against oxidative damage by promoting the production of beneficial metabolites like short-chain fatty acids (SCFAs)

Regulation of Inflammation:

- Balances gut inflammation, reducing systemic inflammatory responses triggered by heavy metal toxicity
-

2. Nourishing Properties

Rosa Roxburghii Tratt Fermentation Liquid

Rich in Vitamin C:

- Strengthens cellular defenses against oxidative stress and supports enzymatic processes involved in detoxification

Mineral Balance:

- Provides natural compounds that support the restoration of depleted nutrients often caused by heavy metal exposure

Enzymatic Enhancement:

- The fermentation process makes bioavailable nutrients more accessible, supporting overall cellular health

Isomaltooligosaccharide

Prebiotic Nourishment:

- Fuels beneficial bacteria like Lactobacillus and Bifidobacterium, enhancing gut health and detox efficiency

Gut Health Support:

- Improves nutrient absorption, ensuring the body receives adequate vitamins and minerals needed for detox and recovery

Lactobacillus Acidophilus (LA1063)

Gut Replenishment:

- Repopulates the gut with good bacteria, improving digestion and reducing toxic buildup

Vitamin Synthesis:

- Aids in the production of B-vitamins, which are critical for liver detoxification and cellular repair

Bifidobacterium Longum

Nutrient Biosynthesis:

- Contributes to the production of essential nutrients and SCFAs, which support gut health and systemic detoxification

Barrier Support:

- Strengthens the intestinal barrier to block the reabsorption of metals
-

3. Healing Properties

Rosa Roxburghii Tratt Fermentation Liquid**Cellular Repair:**

- High antioxidant content aids in repairing oxidative damage caused by heavy metals

Anti-Inflammatory:

- Soothes inflammation in organs like the liver and kidneys, commonly affected by heavy metal toxicity

Collagen Production:

- Vitamin C supports tissue repair and detox pathways by enhancing collagen formation

Isomaltooligosaccharide**Gut Healing:**

- Promotes a balanced microbiome, crucial for repairing gut mucosa damaged by toxins

Immune Recovery:

- Supports the immune system, which is often compromised by heavy metal exposure

Lactobacillus Acidophilus (LA1063)**Gut Lining Repair:**

- Restores intestinal integrity, preventing the systemic effects of heavy metal toxicity

Anti-Toxic Shield:

- Neutralizes harmful effects of metal ions on gut flora, supporting long-term gut and systemic health

Bifidobacterium Longum**Inflammation Modulation:**

- Reduces chronic inflammation in the gut and beyond, promoting systemic healing

Restorative Functions:

- Supports liver and kidney recovery by reducing the body's toxic load
-

4. Specific Benefits for Heavy Metal Detox

Binding and Elimination

Both probiotics (Lactobacillus and Bifidobacterium) and the prebiotic (Isomaltooligosaccharide) work together to bind heavy metals in the gut and facilitate their excretion.

Gut-Liver Support

Enhances the gut-liver axis, optimizing the body's natural detox pathways for metals.

Oxidative Stress Reduction

Rosa Roxburghii Tratt neutralizes free radicals generated by heavy metals, protecting organs like the liver, brain, and kidneys.

Microbiome Restoration

Probiotics replenish beneficial bacteria, preventing dysbiosis caused by heavy metal exposure.

Summary

AZTEC offers a powerful combination of detoxing, nourishing, and healing properties tailored for heavy metal detoxification. Rosa Roxburghii Tratt provides potent antioxidants, while the prebiotic and probiotic ingredients work synergistically to bind and eliminate metals, restore gut and liver health, and repair damage caused by toxicity. This formula is ideal for enhancing the body's resilience and long-term health in the face of environmental and dietary toxin exposures.--

INCA - Lifeforce Surge

title: "INCA (Lifeforce Surge) - 3-Year Fermented Kidney Health Formula"

date: "2026-01-14"

tags: ["kidney-detox", "fermented-supplements", "renal-health", "lifeforce-surge", "adaptogenic-blend", "natural-detox", "kidney-support", "fermented-nutrients"]

category: "product-guide"

summary: "INCA is a 3-year fermented supplement blend specifically designed for kidney health restoration and strengthening. The fermentation process enhances bioavailability of nutrients from ingredients like maca, black garlic, seaweed, and adaptogenic extracts to provide detoxification, nourishment, and healing support for optimal kidney function."

keywords: ["fermented kidney supplement", "natural kidney detox", "kidney health restoration", "adaptogenic kidney support", "renal detoxification formula", "fermented nutrients bioavailability"]

qa_pairs:

- question: "What makes INCA different from other kidney supplements?"
answer: "INCA uses a unique 3-year fermentation process that magnifies nutrient bioavailability, enhances enzymatic activity, and creates beneficial compounds specifically for kidney restoration and strengthening."
 - question: "How does fermentation improve the effectiveness of the ingredients?"
answer: "Fermentation boosts bioactive compounds, increases antioxidant activity, enhances nutrient absorption, and transforms ingredients into more bioavailable forms that better support detoxification and healing."
 - question: "What are the main benefits of INCA for kidney health?"
answer: "INCA provides four key benefits: enhanced detoxification through toxin clearance, nourishment for kidney tissue repair, healing through anti-inflammatory effects, and revitalization to restore kidney energy and function."
 - question: "Which ingredients in INCA are specifically beneficial for kidney detoxification?"
answer: "Key detoxifying ingredients include fermented seaweed for heavy metal removal, black garlic for enhanced S-allyl cysteine content, pineapple and papaya for enzymatic waste breakdown, and grape seed extract for toxin binding."
 - question: "How do the adaptogenic ingredients support kidney health?"
answer: "Fermented adaptogens like maca and Rhodiola Rosea reduce stress hormones and oxidative damage to kidneys, while Cistanche Deserticola acts as a renal protector and tissue revitalizer."
-

Product Overview

Product Name: INCA

This unique blend of 3-year fermented ingredients provides extraordinary revitalizing effects, particularly for the restoration and strengthening of the kidneys. The fermentation process magnifies the bioavailability of nutrients, enhances enzymatic activity, and creates beneficial compounds that support detoxification, nourishment, and healing.

Ingredient List

Maca, Black Garlic, Seaweed, Pineapple, Papaya, Brown Sugar, Apple, Tomato, Dragon Fruit, Mulberry, Kiwi, Passion Fruit, Bitter Melon, Carrot, Green Pepper, Mushroom, Onion, Pumpkin, Spinach, Cabbage, Chive Seed Extract, Grape Seed Extract, Cistanche Deserticola Extract, Rhodiola Rosea Extract, Rice Bran Extract, Millet Spathula Extract, Coenzyme Q10, L-Arginine, Isomalto Oligosaccharide

1. Detoxing Properties

The kidneys play a central role in filtering toxins, and the fermented ingredients in INCA amplify their cleansing ability.

Maca

Enhanced Adaptogenic Effects:

- Fermentation boosts bioactive compounds that regulate stress hormones, reducing kidney strain

Anti-Inflammatory Potency:

- Fermentation heightens its ability to alleviate renal inflammation, ensuring optimal filtration

Pineapple and Papaya**Powerful Enzymatic Detox:**

- Bromelain and papain, activated and intensified through fermentation, break down metabolic waste efficiently

Natural Diuretics:

- Encourage gentle diuresis, promoting toxin removal

Cistanche Deserticola Extract**Renal Protector:**

- Fermentation enhances its ability to shield and revitalize kidney tissues

Improved Toxin Elimination:

- Stimulates healthy urine production, clearing toxins like urea and creatinine

Rhodiola Rosea Extract**Stress Resilience:**

- Heightened antioxidant activity post-fermentation protects kidneys from oxidative and stress-related damage

Black Garlic**Detox Powerhouse:**

- Fermentation maximizes its content of S-allyl cysteine, which detoxifies and shields renal cells from oxidative harm

Enhanced Liver Support:

- Promotes liver detoxification, easing the workload on kidneys

Grape Seed Extract**Chelating Agent:**

- Enhanced polyphenol activity helps bind and remove heavy metals and toxins

Capillary Strengthening:

- Improves kidney microcirculation, boosting filtration efficiency

Seaweed**Heavy Metal Detoxification:**

- The fermentation process enhances alginates that bind and remove heavy metals, radioactive toxins, and other impurities
-

2. Nourishing Properties

The fermentation process magnifies the nutrient content of these ingredients, providing essential nourishment to repair and rejuvenate kidney tissues.

Isomaltooligosaccharide**Enhanced Prebiotic Action:**

- Fermentation increases its gut-nourishing power, supporting the gut-kidney axis to reduce renal toxic load

L-Arginine**Circulatory Enhancer:**

- Fermentation improves bioavailability, ensuring better blood flow and nutrient delivery to the kidneys

Nitric Oxide Boost:

- Reduces blood pressure, safeguarding kidney health

Rice Bran Extract**Nutrient Density:**

- Fermentation releases bioactive vitamins, magnesium, and antioxidants crucial for renal repair

Pumpkin and Spinach**Balanced Electrolytes:**

- Fermentation enriches potassium and magnesium content, supporting kidney function while reducing strain

Enhanced Iron Bioavailability:

- Improves oxygen delivery to renal tissues

Chive Seed Extract**Kidney Qi Support:**

- In traditional medicine, fermentation amplifies its restorative energy, enhancing kidney vitality
-

3. Healing Properties

Fermentation enhances anti-inflammatory and regenerative properties, helping the kidneys recover from stress, toxins, and damage.

Coenzyme Q10 (CoQ10)**Heightened Cellular Protection:**

- Fermentation increases its antioxidant capacity, shielding renal cells from oxidative stress

Energy Boost:

- Improves ATP production for kidney cell repair and function

Cistanche Deserticola Extract**Superior Regeneration:**

- Fermentation boosts its phytonutrient content, stimulating renal tissue repair

Rhodiola Rosea Extract**Anti-Fatigue Superpower:**

- Fermentation intensifies its ability to mitigate physical and mental stress, protecting kidney health

Mulberry and Kiwi**Antioxidant-Rich:**

- Fermentation enhances free radical scavenging, protecting kidneys from cellular damage

Microcirculation Boost:

- Supports blood flow for faster healing

Black Garlic**Anti-Inflammatory Champion:**

- Enhanced fermentation reduces chronic kidney inflammation and supports recovery

Cardio-Renal Benefits:

- Fermentation amplifies its cardio-protective effects, reducing kidney strain
-

4. Revitalizing Effects

The 3-year fermentation process transforms these ingredients into bioavailable superfoods that rejuvenate and restore kidney health.

Key Fermented Kidney Tonics

Cistanche Deserticola and Chive Seed Extract:

- Fermentation boosts their tonic effects, invigorating kidney energy (Jing)

CoQ10 and L-Arginine:

- Amplify blood flow and cellular energy, rejuvenating renal tissues

Pumpkin and Millet Spathula Extract

Nutrient Absorption:

- Enhanced through fermentation, improving renal energy reserves

Seaweed

Metabolic Balance:

- Supplies iodine and trace minerals critical for systemic and kidney health
-

Specific Benefits for Kidney Function

Enhanced Detoxification

Fermented pineapple, papaya, and seaweed actively promote toxin clearance while protecting against oxidative stress.

Stress Reduction

Fermented adaptogens like maca and Rhodiola reduce physical and hormonal stress on the kidneys.

Nourishment for Repair

Nutrient-dense fermented rice bran, spinach, and grape seed extract supply essential building blocks for renal healing.

Anti-Inflammatory Effects

Compounds in fermented black garlic and Cistanche soothe inflammation, ensuring long-term kidney health.

Summary

The 3-year fermentation process supercharges the INCA formula, making it a powerful tool for detoxifying, nourishing, and healing the kidneys. Its revitalizing effects optimize kidney function, ensuring resilience and vitality. This holistic blend is ideal for anyone seeking to restore kidney health while enhancing their body's natural detoxification and rejuvenation systems.

FAQ

How Does the ORIGIN Kidney Cleanse Work? What Can I Expect?

The ORIGIN kidney cleanse strengthens the kidneys.

What you should feel:

- One should feel more vital, powerful, and vibrant as month progresses

The 5-Element System Advantage

The ZenCleans 5 Element detoxification system is designed to:

- Cleanse
- Repair
- Feed the cells

Important understanding:

Though cleanses are labeled for particular organ, enzymes do not work linearly and have been cleansing all body's systems the entire time.

Cumulative effect:

Working through the 5-Element cleanse kits, much of the work has been done once one gets to the kidney cleanse.

ORIGIN Component Focus**Ingredients focus on:**

- Restoring vitality
- Repairing Jing (body's energy bank account)

Three product components:**1. Inca liquid enzymes:**

- Potent Maca elixir
- Great energizer
- Helping nourish and strengthen body

2. Aztec liquid enzymes:

- Contain only two ingredients
- Anti-oxidant-rich Prickly Pear
- Prebiotic Isomaltooligosaccharides

3. JĪNG capsules:

- Help strengthen kidney function
- Promote circulation
- Help regulate nervous, endocrine, pelvic, reproductive, vascular systems
- Powerful for restoring sexual energy and vital essence

Can an ORIGIN Cleanse Be Done Before an Intestinal or Liver Cleanse?

Yes, however, we invite you to start at the beginning and clear the digestive system detox pathways first.

May I Take Supplements or Medication While on the ORIGIN Kit?

Follow any guidelines in the manual.

How Can I Maximize This Cleanse?**Emotional & Mental Health:**

- Try to release yourself from unnecessary stress
- Focus on positive emotional state
- Get adequate sleep throughout program

Hydration:

- Good hydration is vital to kidney health
- Drink enough water
- Aim for 2-3 liters daily

How Many ORIGIN Kits May I Do at a Time?

You may do back-to-back ORIGIN kits.

Additional dosing:

- If someone has weak system and low vitality, suggest that JĪNG capsules be taken twice throughout the day
- Additional purchase of JĪNG capsules required
- Reduce dosing when energy flow returns

Kidney Maintenance Products**Important Principle**

Moving toxins to detox the body is not enough. We must ensure that these toxins will be channeled out of the body.

ZenCleans INCA - Liquid Enzymes

Features

The three stage process gives this blend outstanding power:

- Chelation
- Warm neutralization
- Deep integration fermentation processes

Recommended For

- Regulating kidney function and hormones
- Increasing libido and enhancing sexual functions
- Reducing erectile dysfunction
- Promoting fertility
- Reducing menopausal symptoms
- Boosting energy and endurance
- Improving mood
- Lowering blood pressure
- Fighting free radicals
- Enhancing learning and memory

Key Ingredients

MACA

Nutritional Profile:

- High amount of iron
- More than 10% protein
- Variety of amino acids
- Minerals: zinc, taurine, other components

Benefits:

- Fight fatigue, especially exercise fatigue
- Enhance muscle endurance
- Help improve immunity
- Improve body's ability to resist disease
- Enhance physical strength
- Improve anemia symptoms
- Can regulate hypothalamic-pituitary gland
- Makes secretion of sexual hormones
- Thus improving sexual dysfunction
- Contain variety of bioactive secondary metabolites
- Enhance energy
- Improve fertility
- Treat menopause syndrome, depression, rheumatism
- Main ingredient of blend made unique by 3-year fermentation process
- Maximize absorption

PAPAYA

Nutritional Profile:

- Rich in fiber
- Highly vitaminized: C, A, B5, B9, E
- Contains several antioxidant substances
- Great source of calcium and potassium

Benefits:

- Vitamins A, C, E essential for reproductive health and fertility
- Fantastic alkalizer
- Profoundly supports all detoxification processes
- When fermented, papaya's properties contain high amount of papain enzymes
- Increase intestinal motility
- Aid in absorption of nutrients
- Remove peroxide and other toxins in body
- Purify blood

- Reduce liver dysfunction
- Reduce high blood lipid
- Reduce hypertension with prevention results
- Due to high nutrient content, papaya benefits fermented liquid enzyme

APPLE

Nutritional Profile:

- Sweet and delicious, crisp and juicy
- Rich in sugar, protein, calcium, phosphorus
- Iron, zinc, potassium, magnesium, sulfur
- Carotene
- Vitamins B1, B2, C
- Niacin, cellulose, other nutrients

Benefits:

- Apart from keeping doctor away, apples lower cholesterol levels
- Reduce blood sugar
- Boost microbiome
- Reduce inflammation
- Vitamin A and C levels help protect cells
- Slow aging
- Selected for liquid enzyme in synergy with other ingredients
- Boost and nourish reproductive system
- So one essence emerges and flows

CHIVE SEED

Nutritional Profile:

- Rich in vitamin C
- Rich in vitamin K

Benefits:

- For immune system activity
- For optimal blood clotting
- For wound healing
- For bone health
- High in manganese and folate
- Enhance red blood cell synthesis and circulation
- Maximize muscle strength and nerve signaling reactions
- Added to powerful liquid enzyme blend
- Promote and regulate qi
- Enhance digestive function
- Regulate blood circulation qi
- Contributes to all systems
- Creates synergy to elevate vital energy
- Circulates through body at all times

ZenCleans AZTEC - Liquid Enzymes

Recommended For

- Regulating immune function
- Promoting detoxification
- Helping cellular regeneration
- Lowering blood sugar
- Reducing joint inflammation
- Keeping balance in digestive system
- Support liver function, reducing its burden
- Preventing constipation

Ingredient Profile

Aztec prickly pear enzyme blend is rich in antioxidants, with each bottle fermented from 10-12 Roxburgh Pears.

For detailed ingredient information, see Aztec Liquid section above.

ZenCleans JING - Enzyme Capsules

Recommended For

- Strengthening the kidneys
- Promoting blood circulation
- Regulating the nervous, endocrine, pelvic muscle, reproductive, and vascular systems
- Restoring sexual energy and vital essence

Key Ingredients

GINSENG

Nutritional Profile:

- Rich in minerals: potassium, sodium, iron
- Contains saponins, amino acids
- Vitamin C
- Powerful energizer

Benefits:

- Promotes relaxation
- Lowers blood sugar and cholesterol levels
- Reduces stress
- Manages sexual dysfunction
- Chosen as daily support
- Provides benefits on renal damage and hepatotoxicity
- Boosting energy and reducing fatigue

JAPANESE PLUM (Goji Berry)

Description:

Also known as goji berry, this is a superfood.

Nutritional Profile:

- Rich in polysaccharides
- Packed with antioxidants
- Vitamins A and C
- Fibers and iron

Benefits:

- Involved in oxygen transport
- Producing healthy red blood cells
- Iron is energy booster
- Preserves vital functions: immune system, gastrointestinal processes
- Carefully chosen in blend
- Supports kidneys by helping flush toxins
- Relieving stress on kidneys
- Has antibacterial properties
- Protect kidneys from damage caused by toxins
- Can compromise kidney function

GUAVA

Nutritional Profile:

- Abundant in vitamins: C, A, B6
- Abundant in minerals: manganese, potassium, iron, calcium
- Contains anthocyanins

Benefits:

- Like several phenolic compounds, have essential antioxidant properties
- Neutralize free radicals in body
- Prevent onset of several diseases: cancers, cardiovascular diseases, chronic diseases
- Kidney protector
- Has conditioning effect on kidneys, liver, many other organs
- Adding to enzyme tablet enhances and helps yang
- Contribute to solid essence (jing)

- Basis of constitutional strength

MUSTARD (Cumin)

Description:

Used for millennia, contains many beneficial effects on health.

Nutritional Profile:

- Mainly known in digestive sphere
- Anti-spasmodic, relaxing, anti-bloating
- Rich in minerals: magnesium, calcium, iron, phosphorus
- Rich in vitamins: B1, B2, B3, A, C
- Phenolic compounds

Benefits:

- Can prevent cardiovascular diseases
 - Can prevent allergies
 - Can prevent respiratory diseases
 - Properties perfectly complement enzyme mixture
 - Allows excellent urinary elimination
 - Helps cleanse renal system
-

User Testimonials

Josh Macin - Detox Expert, United States

Experience:

"I did the Origin Kidney cleanse after months of going through different ZenCleans protocols. Starting with Rainbow, done twice (with extended liver flush protocol each time), then 5 months on liquid enzymes with many days being solely on enzymes and water - I felt intuitively that my body was asking for the Origin Kidney cleanse.

The 30 days of the Origin Kidney cleanse coincided with a very intense and demanding time in my business. Longer working hours, tons of clients, inquiries, accounting and legal stuff.

However I was able to navigate through that challenging time very smoothly, the Origin kit gave me extra power (I felt supercharged!), I was able to keep up on a healthy sleep routine.

For nerds who love hard evidence - my hormone levels (E3G, LH, PdG) drastically improved."

Maria - Acupuncturist, England

Quote:

"The continued results from clients with the mega dose enzyme cleanse is astounding. Need to keep sharing with you all."

Experience:

"This one day colon cleanse is one of the most effective ways I've seen to clear Damp. It usually takes a lot of treatments (acupuncture) to do what that cleanse did in 24 hours without much discomforts..."

Key Takeaway:

"IT IS LIKE AUTOPHAGY ON STEROIDS"

Ross J Barr - Integrative Medicine Doctor, Belgium

Quote:

"ONE of the MOST EFFECTIVE WAY TO CLEAR INTERNAL DAMPNESS"

Dr. Liesbeth Denev - Integrative Medicine Doctor, Belgium

Experience:

"I am a doctor in integrative medicine in Belgium, and I am extremely happy with the results of the ZenCleans Therapy on myself. I've been ill with long-haul COVID. (getting better slowly ...)"

Key Takeaway:

"I WILL PRESCRIBE IT TO ALL MY PATIENTS"

Why Choose ZenCleans?

Core Philosophy

Cleanse Every Organ and System With Power and Grace

Our Approach

We are solely focusing on holistic natural self-care and are creating a new self-care system with you. We share natural medicine values and holistic principles through:

- Education
- Coaching
- Life experience
- Self-empowerment

Our Methods

Blends of wisdom and science fermented over 3 years for a profound natural enzyme therapy.

Chi-Tech Nutrition Foundation

Our approach combines:

- Traditional Chinese Medicine
- Organic Farming
- Naturopathic Medicine
- Science

The 5 Elements & Body Systems

System Overview

The ZenCleans 5 Element Detox & Rejuvenation System addresses different body systems and detox pathways:

1. **Element 1 - EARTH** - Digestive Tract
2. **Element 2 - WOOD** - Liver
3. **Element 3 - METAL** - Lungs
4. **Element 4 - FIRE** - Blood & Lymph
5. **Element 5 - WATER** - Kidneys & Hormones

Each element corresponds to Traditional Chinese Medicine's fundamental organ systems and represents a layer of detoxification.

Summary

Key Takeaways

1. **Kidney Regeneration Focus** - ORIGIN goes beyond cleansing to focus on kidney regeneration and restoration of vital essence (Jing)
2. **30-Day Deep Cleanse** - Three-product system provides comprehensive support for kidneys through systemic enzymes, liver detoxification support, and hormonal restoration
3. **Cumulative System Benefits** - Strengthened kidneys improve overall endocrine, nervous, and immune system function, with visible effects on energy, mood, memory, and sexual health
4. **Hormone & Vitality Support** - Specialized formulas focus on restoring sexual energy, balancing hormones, and promoting fertility
5. **Foundation of Life Force** - Restores Jing (vital essence), the foundation of life force that supports growth, development, reproduction, and constitutional strength
6. **Comprehensive Protocol** - Combines enzyme therapy with dietary modifications, stress management, proper sleep, and exercise for maximum effectiveness
7. **Maintenance Focus** - Multiple maintenance products available to sustain kidney health long-term and prevent re-accumulation of toxins
8. **Final Phase Success** - As the final phase of the 5-Element system, ORIGIN benefits from the detoxification work already accomplished in previous phases, amplifying results
